

Title: Environmental Project Manager

Firm: Cox|McLain Environmental Consulting, Inc. (CMEC)

Location: Houston, Irving, or Austin, Texas

Job Description: CMEC is seeking a qualified, self-motivated, and entrepreneurial Environmental Project Manager to join our team. Duties include preparation of environmental regulatory compliance documents, coordinating discipline specialists, client interactions, QA/QC reviews, field investigations, business development, proposal preparation, and scoping/budgeting. Compensation includes competitive salary, bonus incentive program, and benefits package (health, vacation, profit sharing, etc.).

Qualifications:

Essential Qualifications:

Candidates should have a solid background in regulatory compliance with experience in NEPA; linear infrastructure (transportation, water/wastewater, communications, and oil/gas/energy projects); client/review agency interaction; and environmental impact analysis. Candidate must be able to manage projects in a collaborative setting with multiple disciplines across offices in a consulting environment. This person will take the lead in preparing NEPA documents working with environmental staff and engineering clients. Responsibilities include preparing environmental documents in compliance with applicable governing statutes and implementing regulations. This position will lead projects in Texas, Oklahoma and the Southwest; manage multiple assignments; perform complex analyses; and interface with clients, agencies and the public. This position is ideal for a proven professional who is seeking career expansion in the dynamic environment of a growing environmental company.

Experience Required:

- 5-10+ years of experience required in environmental planning, assessment, and permitting;
- Working knowledge of environmental compliance requirements as they relate to public and private infrastructure projects;
- Working knowledge of agencies including USACE, TPWD, TxDOT, FERC, FHWA, FRA, FTA, FAA;
- Position requires the flexibility to travel for project and field work;
- Position requires demonstrated skill and commitment to QA/QC practices;
- Experience working for a small to mid-size multi-disciplinary environmental firm is a plus;
- The candidate will be committed to quality and professionalism;
- Must be a team player!
- TxDOT 2.14.1 precertification is a plus.

Education Required:

- B.S. in Planning, Environmental Science, Biology, or a related field.
- Master’s degree in pertinent field preferred. Provide other certification/training information (American Institute of Certified Planners, OSHA 30 hour, HAZWOPER, CPESC or CESSWI, etc.).

If interested, please e-mail (PDF or WORD) a cover letter, resume, and contact information for three references to jobs@coxmcclain.com. CMEC is an Equal Opportunity Employer.
